

18 Jan 2016

**As part of ANZ’s commitment to actively managing and reducing the environmental impact of its activities, ANZ launched its first Green Bond in June 2015.**

**Certification & Verification**

At issuance ANZ Green Bonds were certified by the Climate Bonds Initiative (CBI) – a Not-For-Profit organisation that aims to promote large-scale investments that will help to deliver a low-carbon economy.

The [CBI’s standards](#) provide a framework to ensure that Green Bond proceeds are used in ways that are consistent with delivering a low-carbon economy.

Compliance with CBI standards was independently verified by CBI-accredited verifier, EY.

As agreed with investors, ANZ sought re-certification of its Green Bonds as of December 2015. Following independent verification by EY of compliance with CBI standards, ANZ Green Bonds have been re-certified. ANZ will next seek re-certification as of June 2016.

<b>Eligible Assets as at 31/12/2015</b>	<b>Green Bonds outstanding</b>	<b>Surplus Funds</b>
<b>A\$1,141,062,983</b>	<b>A\$600,000,000</b>	<b>A\$0</b>

**Eligible Assets Consist of;**

Wind – projects involved in the development, construction and operation of wind farms; or operate production facilities dedicated solely to wind energy; or have wholly dedicated transmission infrastructure for wind farms.

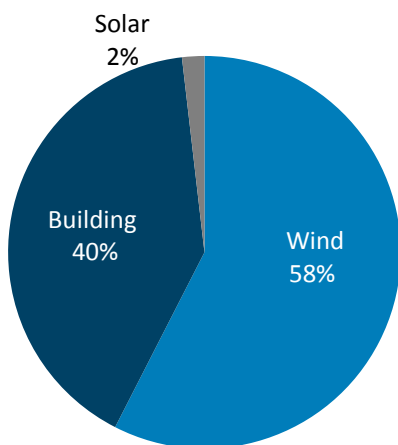

Solar – projects involved in the development, construction and operation of generation facilities, where 100% of electricity is derived from solar energy or where no more than 15% of electricity is supported by gas fired back-up; or projects that operate production facilities wholly dedicated to solar energy development; or projects with wholly dedicated transmission infrastructure for eligible solar electricity generation facilities.

Commercial Buildings – Green Star 4 Star-rated commercial buildings that meet a minimum required threshold of CO2 emissions and that are at least in the top 15% of buildings in their city for reduced carbon emissions (checked and reported annually).
